Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 3, 4, 9, 10, 15, 35 and 36 are objected to because of the following informalities: In these claims, the recitation "with a related Micropayments accounting system" needs clarification. Are applicants referring to the same related Micropayments accounting system of parent claims? Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1, 6, 7, 12, 29, 33, 34 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In these claims, the recitation "to a compatible wireless transmission channel port on a wireless mobile device" renders these claims indefinite. Are Applicants referring to the same wireless mobile device?

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-38 are rejected under 35 U.S.C. 102(e) as being anticipated by Shore (2003/014966 A1).

As best understood, Shore discloses a computer implemented method and system for reverse-control of a wireless mobile device (700) embodied in a computer readable medium to perform the steps of:

providing a vendor/product device () with a computer platform (via point of purchase/sale terminal 710) coupled to a wireless transmission channel port (box [0085]); and transmitting from the vendor device (710) via the wireless transmission channel port (via short range data transmission) to a compatible wireless transmission channel port on a wireless mobile device (box [0109]), a program to take control of the wireless mobile device's menuing, interaction and display functions (box [0104]).

Shore further discloses the step of causing the wireless mobile device (3104) to interact wirelessly with the vendor device (3407) and a related micropayments accounting system (via micropayment system box [0470]). The interaction with the related micropayments accounting system will cause the vendor device to provide a product or service to the holder of the wireless mobile device (via approval of of transaction using micropayment account 3203).

Shore further discloses the interaction with a related micropayments accounting system will cause a charge to be made to the account of the holder of the wireless mobile device 9box [0455]), and/or a charge to be made to the account of the holder of

the wireless mobile device produces a debit to a prepaid digital account or aggregates the debit with other current debits to be billed to the account holder at month end (box [482] via settlement procedures as per contractual agreements.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Demers et al. disclose generating electronic payments to support microtransactions.

Griffith discloses a wireless device to function as a transaction device.

Turtiainen discloses a method and system for establishing a communication between an application and a user interface through a communications network.

Kashef et al. discloses implementing a terminal software architecture for accepting a card that implements a card application of a merchant.

Freeney, Jr. discloses a proximity service unit for providing service for use with multiple types of wireless devices.
